

Abenezer Lulseged Wube

FullStack Developer

About Me

I am a dedicated and highly motivated Full-Stack Developer with a Bachelor's degree in Computer Science from Admas University. I possess a solid foundation in software development, gained through a combination of academic coursework, hands-on projects, and professional experience. My expertise spans multiple programming languages and frameworks, allowing me to adapt quickly and efficiently to new challenges.

Certificates

- Admas University (BSc Degree August 2023)
- Cisco Networking Academy (certificate of course completion in cyber security)

EDUCATION

Admas University

2018 - 2023

Bachelor of Science - BSc, Degree in Computer Science

DonBosco Catholic School

High School Diploma,

WORK EXPERIENCE

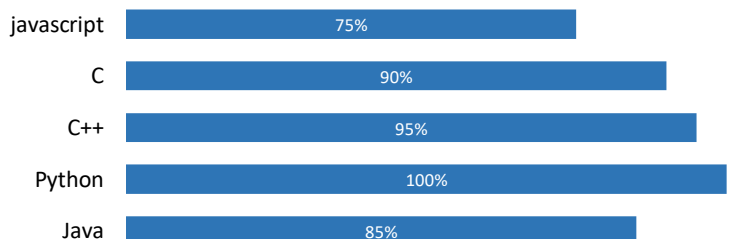

Gotmeri PLC

- Developed and maintained features for a Hospital Management System (HMS) project using Java.
- Collaborated with a team of developers to ensure project success.
- Utilized Spring Boot framework for efficient and scalable application development.
- Interacted with clients to gather requirements and ensure project alignment with expectations.

Hierarchical Deterministic Wallet(HDWallet)

- A Python-based library for implementing a hierarchical deterministic wallet generator supporting over 140 cryptocurrencies.
- It enables management of multiple coins, accounts, external and internal chains per account, and millions of addresses per chain.
- Currently developing the desktop version of the library and would be public shortly.

Programming Languages

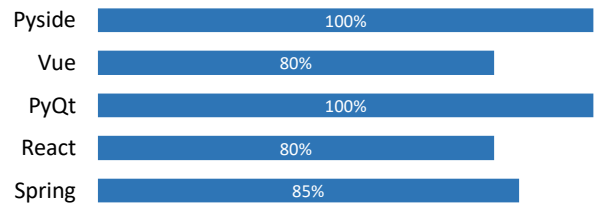

Languages

English (Fluent), Amharic (Native).

Key Strengths

- Strong problem-solving abilities and analytical skills
- Proficient in multiple programming languages and frameworks
- Experience in both front-end and back-end development
- Excellent communication and teamwork skills
- Commitment to continuous learning and professional growth

Frameworks / Libraries

Devops

Git / Github

Academic Projects

Online Bookstore System

- Developed an online bookstore system using Java and MySQL.
- Implemented features for user authentication, product browsing, and order processing.

Employee Managment System

- Designed and implemented a employee management system using Php and other web tools.
- Created a user-friendly interface for administrators to manage employees data efficiently.
